

Enterprise and LTI

Biotech Primer provides the ability to deliver On-Demand Micro Classes. This document details integration and enterprise options available to clients. **This document is intended to be a reference. Due to various LMS packages and support, this may or may not apply.**

LTI Integration

LTI integrations provide a “bridge” for course delivery. When operating within an LTI Bridge, Biotech Primer’s LMS provides course content and tracking to a company LMS.

Biotech Primer offers three LTI integration versions: LTI v1.0, LTI v1.1, and LTI v1.3.

LTI version selection is based on the client’s LMS provider’s compatibility.

- Administration credentials within Biotech Primer’s LMS (one user)
- Users maintain individual credentials inside their company LMS
- Reports generated inside client/company LMS

** Companies maintain the user experience inside their LMS to deliver Biotech Primer courses to their employees.*

Enterprise

Enterprise packages include administrative access to a company-specific portal housed inside Biotech Primer’s LMS.

- Administration credentials within Biotech Primer’s LMS (one user)
- User credentials within Biotech Primer’s LMS
- Reports generated within Biotech Primer’s LMS

** Companies utilize Biotech Primer’s LMS to deliver courses to their employees.*
